Model NV-214A-M
Video Transceiver

Features:

- Full-motion CCTV video at distances up to 750 ft (225 m) when used with any passive NVT transceiver or hub
- Up to 3,000 feet (1,000 m) with a DigitalEQ™ Hub or active receiver
- Up to 1,500 feet (460 m) shall be supported by any NVT StubEQ™ Hub
- Mini-coax pigtail supports in-camera mounting in most dome cameras
- Reliable screwless UTP terminal connection
- No power required
- Exceptional interference rejection
- Built-in transient protection
- Supports “up-the-coax” type control signal up to 750 ft (225 m)
- Limited lifetime warranty

The NVT Model NV-214A-M Video Transceiver is a passive (non-amplified) device that allows the transmission of real-time monochrome or color video over Unshielded Twisted-Pair (UTP) telephone wire. Baseband (composite) signals of any type are supported.

This product is an improvement over NVT’s popular NV-213A video transceiver. The passive NV-214A-M has a 9” mini-coax pigtail lead which allows in-camera enclosure mounting in most dome cameras and a greater number of mounting options in general at both ends of the system. It is capable of delivering a fully equalized signal to the DVR when used with any Active NVT Receiver, yet is compatible with all of NVT’s passive products for applications under 750 ft (225 m). The NV-214A-M Video Transceiver also incorporates improved transient protection that eliminates the need for a ground screw.

The unparalleled interference rejection and low emissions of the NV-214A-M allow video signals to co-exist in the same wire bundle as telephone, datacom, or low-voltage power circuits. This allows the use of a shared or existing cable plant.

**POWER**
No external power required

**ENVIRONMENTAL**
- Ambient ambient temperature: -22 to +167 °F (-30 to +75 °C)
- Humidity (non-condensing): 0 to 95%
- Transient Immunity: per ANSI / IEEE 587 C62.41

**WIRE TYPE**
- Network Wiring: One Unshielded Twisted Pair
- Category Type: 24-16 AWG (0.5-1.31mm)
- Impedance: 100 ± 20 ohms
- DC Loop Resistance: 52 ohms per 1,000ft (18 ohms per 100m)
- Differential Capacitance: 19 pF/ft max (62 pF/m max)

**MECHANICAL**
- Body Length: 1.8in (45mm)
- Body Height: 1.0in (26mm)
- Body Width: 9in (228mm)
- Product Weight: 2.0oz (60g)
- Packaged Weight: 0.14lb (63g)

Specifications subject to change without notice.

**Typical Applications**

- **Passive to Passive Application up to 750ft (225m)**

- **Passive to Active Application up to 3,000ft (1km)**
